

# BRIDGE REAMERS

**Steelmax**  
The tools of innovation.

Align & enlarge holes in metal

Steelmax Reamers are used to align and enlarge holes in metal, especially before installing bolts or rivets. Their tapered point allows entry into overlapping holes, making them suitable for various manufacturing applications. They work well with both magnetic drilling machines and impact wrenches with an adapter.

**3/4" Weldon Shank**  
for use in magnetic drill

Part Number	Dia (in)	Flute length (in)	Length (in)	Price
